Class Description: An art class designed for beginners or near beginners in a range of mediums. Colour Theory and the Elements and Principles of design are embedded within each lesson. Over the course of the year students will build solid skills in understanding and applying colour theory and design knowledge and learn to make deliberate choices in their work to help effectively convey intention. Each new material and technique is explicitly taught, demonstrated and practiced in directed tasks. The work of other artists is regularly shown and discussed in relation to techniques and materials, techniques and subject matter being explored.

Term 1 Drawing. Throughout the 5 weeks students will learn to use pencil, charcoal, chalk pastel, oil pastel, pen, ink and mixed media. We will examine the work of artists who work predominantly in drawing to help us to understand different techniques and mediums. We will work with a range of subject matter.
